OF THE CITY OF ŁÓDŹ.

Księży Młyn – film mysteries

Beginning: 61 Piłsudskiego Ave., Źródliśka I Park, Palm House
Route: 2,5 km, **time:** 80 minutes
Quest on foot

To make the quest more manageable,
use a smartphone and a map – to feel more comfortable.
The internet you may also find very useful:
looking for some info – it will be more fruitful!
In designated spaces correct words must be written down,
from letters marked with digits – find a password and have fun!

In the quest Polish titles you will also find,
but that's not a trick of your mind.
They are there to make it clear – satisfaction you will feel.

Authors: Marta Gadula and Małgorzata Krakowiak
Translator: Justyna Żuraw

Księży Młyn has many film stories hidden, although years have passed, they will always be there – I'm not kidding. To get to know their tradition two parts of the quest are our ambition. If you go through them, a password you will receive thanks to which a winning seal will be at your feet. Finally, when the two routes are over, all digits written down moreover, at the last stop the treasure you will find when all film sets are in your mind. The area where we are Księży Młyn was called as in the 15th century water mills there were – as I was told. And for a long time the bishop was the owner, till in the 19th century Karol Scheibler took it over. His assets into the industrial district were changed when the steam engine to Łódź was engaged. "The king of cotton" Scheibler was called when his empire at Księży Młyn was formed.

Our journey from the Palm House we will commence where one episode of "Komisarz Alex" TV series took place. In 1956 the building to the public was given, few know that there is the didactic garden hidden. We continue our interesting route, into the park we can go on foot. In front of you (on the left) a beautiful arbor you can observe: if you close your eyes the sounds of music for you are reserved. Now we leave the arbor just to the right where the building in front of us we can find. Before we reach the Gardener's House, let's get to know some interesting facts about one of the first public parks: its name from many lakes located here was created, none of inhabitants of Łódź could ever mistake it. In this park many concerts were organized with lots of garden games the residents were familiarized. The house where the park caretaker once lived we pass on the left, the path to the left behind the chess tables we take – a way out No. 1 from the park we should make. Going through the park geometric flower beds we pass on the left, on the right – sports fields can also be met. Once (on the right) the playground is at sight: it's a sign that the exit gate will show up all right. And when you look in front of you workers' housing estate there will be too. After leaving the park we take zebra crossing: we go along the buildings and nothing is missing. Koci Szlak – this path has been called that way for a long time; now into the district off we go – it is not a crime.

On the right the inscription: Księży Młyn we will pass and on the left many benches will be in front of us. We turn into a cobblestone path to the left, we leave the former shops behind our backs. We turn left – and then to the right, looking for an avenue with trees at our sight. Let's stop at family houses for a while to some movie sets devoting our time. To Księży Młyn a funny story is related about how this film space was underestimated: when the Americans saw movies made here, they did not believe the scenery was real! In videos, movies and commercials these spaces now play, other locations in Poland and in the world they do not fail. If we look attentively around ourselves Łódź film landscapes will be easy to face. TVP and BBC together created the series "Dzwony wojny" – they could make it. If with Andrzej Barański you are familiarized, in "Kawalerskie życie na obczyźnie" Księży Młyn you will recognize. Borys Lankosz the film "Odkryta" also filmed here, about the secrets and riddles of Łódź he made it clear. Now we enter the path among the trees into the estate, looking for a water pump, my dear mate. This is a place where we stop for a few moments to read about films shot here with some comments. Ł_ _ _ _ 8 Palkowski for the movie "Nasza ulica" also Księży Młyn once chose, it talked about a young man, war and its force. A _ _ 1 _ S Z _ _ H _ 8 _ _ N _ also her "Gorączka" made here, the times of revolution, a conflict of ideas and ethics she did reveal. Lianne Harvey with Tomasz Kot in the film played once in this spot in "Bikini Blue" by J _ 7 _ _ 2 _ _ Marszewski to English suburbs took us its plot. Before the quest continuation is in our mind, a historic pump we will try to find. We will have a rest here for a while, the film atmosphere is not far a mile. Then we go on a further trip to discover another interesting thing. After leaving the workers' housing gate turn left where Przędzalniana/ Tymienieckiego can be met. Opposite we will find a bright building in front of the entrance there is the board – let's not hide it! On it a piece of information about this place is provided. The Herbst Palace museum is in front of us, as we are told, works of art are hidden behind its thresholds. This neo-renaissance villa was 3 _ V _ _ L _ _ 9 _ 's fate, that is why in his film "Inland E4 _ _ _ _ " it successfully played.

We continue our journey looking for film frames: we come back the same way to workers' estate gates. Now in front of the entrance to the district we are standing let's turn back to see the spinning mill building. And the gate known to many moviegoers: in "P _ _ _ _ 6 _ D LAND" more than one scene had its powers. Behind the gate a long, brick building is located, one of the largest spinning mills in Europe – here they made it. The building is over two hundred meters long, to the movie "Czerwone węże" it also belonged. We continue our way towards Tymienieckiego street till on the right side a red pump is at our feet. Behind it the building of the former Fire Station is located, at Tymienieckiego street number thirty it was created. We will focus on the central part now and count some things – you know how. Write down how many entries there are under the roof ○ what is on the third floor between the windows – the alarm Bell – that is your proof. We will focus on the central part of the building one more time to quickly count the number of windows – it's not a crime! ○○

All this information should be noted here, it will be needed as the treasure we can already feel. From this former fire station building some secrets peered in TV series "Komisarz Alex" as the police station it appeared. We finish the first part, but do not slow down: find Znikąd Donikąd café in our nice town. From the former Fire Station building to the East let us go now, the reward prepared for you is not so far. When on the left, turn into Księży Młyn, inside already-known Koci Szlak can be found. There, at number sixteen, the café is located, the treasure for you is there situated. From the letters marked with digits discover the password and after adding the digits the safe is sold.

We encourage you to take part in the second part of the quest, you will get to know Księży Młyn from East to the West! As soon as the password is known to you, new film facts will be clear too.
